

Weekly Word Study Work

Sorts and Rules

Write the words down on paper sorted by the categories we discovered in class. Write down the generalizations/rules we used to sort the words.

Speed Sort

Cut up the words and sort them by the categories. Do the word sort several times as fast as you can. Record your fastest time and have a parent initial it.

Paste-Up

Take your cut-up words and paste them on a piece of paper by category.

Word Hunt

Find at least five words (in any source of printed material - books, magazines, brochures, cereal boxes, etc.) that fit the categories of your word sort. Write them down under the appropriate category in the word sort you wrote down earlier.

Sentences

Pick five words and use them in sentences.

Test

Study the words and definitions for the test.
