

What does it mean to be quarantined?

Stay at home except to get medical care.

You should restrict activities outside your home, except for getting medical care. Do not go to work, school, or public areas. Do not use public transportation, ride-sharing, or taxis. You will need to make arrangements to have groceries and household items delivered to your home. If you need help with this, please let us know.

Monitor for symptoms.

Seek prompt medical attention if you develop symptoms including fever of 100.0° F or above, feeling feverish, cough, or difficulty breathing. Before seeking care, call your healthcare provider and tell them that you are under quarantine for potential exposure to novel coronavirus (COVID-19). Put on a facemask before you enter the facility. These steps will help the healthcare provider's office to keep other people from getting infected or exposed. Ask your healthcare provider to call the Sonoma County Public Health Department (707) 565-4566. **If you need emergency medical care call 911** and be sure to tell them you may have been exposed to COVID-19.

Clean your hands.

Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, clean your hands with an alcohol-based hand sanitizer that contains at least 60% alcohol, covering all surfaces of your hands and rubbing them together until they feel dry. Soap and water are best if your hands are visibly dirty. Avoid touching your eyes, nose, and mouth with unwashed hands.

Avoid sharing personal household items.

You should not share dishes, drinking glasses, cups, eating utensils, towels, or bedding with other people in your home. After using these items, they should be washed thoroughly with soap and water.

Cover your coughs and sneezes.

Cover your mouth and nose with a tissue when you cough or sneeze. Throw used tissues in a lined trash can and wash your hands with soap and water for at least 20 seconds. If soap and water are not available, immediately clean your hands with an alcohol-based hand sanitizer that contains at least 60% alcohol, covering all surfaces of your hands and rubbing them together until they feel dry. Soap and water should be used preferentially if hands are visibly dirty.

If you have questions or are having difficulty maintaining your quarantine, please contact the Sonoma County Public Health Department at (707) 565-4566.
